PERTH AMBOY – Mayor
Wilda Diaz delivered the
State of the City Address on
Wednesday, March 19, 2014 at
the Perth Amboy Public Safety Complex Auditorium at the
YMCA at 7 p.m. The Master
of Ceremonies was Chief of
Staff Lissette Martinez.

Martinez thanked local officials and City employees. Congressman Frank Pallone Jr. from the 6<sup>th</sup> Congressional District was the first speaker. Pallone started of his remarks by stating, "How proud we are of Mayor Diaz. I remember walking down Smith Street with the Mayor and everyone knew Wilda Diaz. I've never met anyone more proud of our City. She is the ultimate salesperson for the City. She is always calling me about something whether it be dredging, the train station or funding for the library. She is not cheap, but very thrifty. She looks out for the City and knows what to do to put the City in financial shape. I am very proud of her. Diaz was recently elected President of the NJ Urban Mayors Association and is promoting Perth Amboy. She wants you not to worry how your tax dollars are being spent. It is rare that you have all that combined in one person."

Barbara Johnson, Executive

Barbara Johnson Executive Director of the John S. Watson Institute for Public Policy of Thomas Edison State College

Director of the John S. Watson Institute for Public Safety at Thomas Edison State College was called upon to introduce the Mayor. Before she did so, Johnson wanted to give a brief overview of what Thomas Edison State College has to offer. "The College was chartered in 1972 and it's for adults only. The average age of a student is 36. The College has the longest and strongest nursing program in the Country and the highest pass rate for the CPA exam. It is one of eleven state schools in New Jersey. The College does public service in urban and rural communities."

Johnson explained how a think tank which is part of that policy ties into the Mayor's position as President of NJUMA. "This think tank has resources for residents, nonprofits and government agencies. We keep an eye on Trenton to make sure policies and laws that they initiate answer the urban community's needs. Thomas Edison has been committed to the NJ Urban Mayor Association for 26 years. We provide training for the Mayors. Perth Amboy is one of nineteen communities receiving a \$320,000 grant."

"Wilda Diaz is the first Woman Leader in the NJUMA." Johnson quoted the late New York Congresswoman Shirley Chisholm, "We need strong women leaders. Being a leader is hard work and Mayor Diaz is the one who is up to the task. Diaz supported the Dream Act. She takes chances and moves forward. I was invited by Mayor Diaz to take a tour of the City. I'm impressed. Urban communities are the backbone of the state. Looking at the Bloustein Study, young people want to live in a city — not the suburbs. They want to come to a place where they can live, work and play."

Just before Johnson introduced the Mayor, she said, "I look forward to working with her (Wilda Diaz) for the next two years. She has a passion in what she sees. We will do great things."

When Mayor Diaz came to the podium, she thanked everyone, "As we reflect on our accomplishments. It's not about building political agenda's but our goal is to build a firm foundation. Public safety is important. There was a two level upgrade from A- to A+ in stability. This represents the community of property owners. In 2013 \$71 million was cut from the annual budget. We will reduce the budget from \$250 million to \$199 million by the end of 2014."

"We secured \$17.1 million in funds to repair the Perth Amboy Waterfront. By this summer the Waterfront will be free of fencing. \$3.4 million in FEMA money will be utilized

"We are planning NJ design and value of residents. We will soon hold a ribbon cutting for the Phase II of the recreation facility. The Middlesex County Board of Freeholders approved this State of the Art County Park (across the street

# **South Amboy Excited About Walkway Construction**

By: Joseph L. Kuchie SOUTH AMBOY - South Amboy Mayor Fred Henry shared his excitement for the beginning of the Waterfront Walkway construction at a relatively short city council meeting last week.

The construction, which began this past Monday, will bring life the popular walkway that was destroyed by Hurricane Sandy over a year ago. Mayor Henry explained that this was the beginning of an exciting three-month process.

"We will have work beginning on the beachfront walkway and it should take approximately three months to complete," Henry said in his opening remarks. "We are looking to getting our beautiful walkway back and in walking shape."

The city received more than \$2 million from FEMA

back in January to complete the project. According to the city's website, some of the repairs will include revetment (sloping structures placed on banks or cliffs in such a way as to absorb the energy of incoming water) replacement, new fencing, roadway repair at the overlook, and partial replacement of the pedestrian bridge.

D&S Land Development, LLC was awarded the contract for the Waterfront Walkway in February at \$1,592,580. Barring any setbacks due to weather, Mayor Henry believes the project can be completed in time for fireworks in July.

The council also adopted an ordinance that will add handicapped parking to 253 Main Street in South Amboy. The next city council meeting will be held on April 16th.

A recent shooting in Perth Amboy was mentioned. She felt sympathy for the family of the victim and the police officers involved. She also mentioned the late Roland Jenkins, Eddie Felbles Jr. and Gertrude Lincoln who passed away recently and how they contributed to the community.

#### LOCAL PERSPECTIVE

#### **EDITORIAL**

#### A Trade Off Revisiting the College Issue

As most of the readers know by now, I don't have a television and often when I go to sleep I have the radio on. When I wake up in the middle of night I may hear the middle or the end of a specific issue being discussed on the program.

The last time this happened what perked up my ears was a discussion about welders. One of the participants taught at a school for welders. He said that there were a lot of positions open and not enough workers to fill the jobs. At his particular school, they were graduating 300 students a year and had a six month waiting

It was not unusual for welders in their early twenties to be earning six figure salaries.

This made me very curious so I immediately started to Google welding jobs. Was I in for a surprise!

The first information started out with the salary range of \$50,000 to \$200,000 a year. It also listed the different categories, positions and industries where welders are in demand. The most striking information was the fact that a lot of our infrastructures are very old. There is a high demand of people needed to inspect, repair or replace structures.

I was also interested in one particular website where people told how they started out welding. One person said they started welding alongside his dad at the age of seven. His father was a highly skilled welder and this peaked his interest.

The training needed will depend on the materials that you will be working with and the field dealing with welding that you choose.

What it boils down to a tradineeds. You really need to observe and talk to your children about what their interests are not yours.

It would be akin to having a family business and assuming that your children will want to follow in your footsteps. The reality is that it may not always be true.

I decided to look at websites to see what courses local vocational schools offered. Again I was surprised!

Would your child be better served going to a vocational school? Look at your children and see what they really enjoy. Talk to them about their options. You may find that a vocational school has a course that appeals to them. Talk to an administrator or attend an open house.

Remember vocational schools share the some of the basic important criteria as the public schools as far as days attended and certain curriculum requirements.

Whether they prefer to attend a traditional public, parochial or charter school, it doesn't hurt to examine all options. Your child should not be stigmatized over a school that they attended as long as that school gives them the education they need. C.M.

At one Board of Ed meeting it was said by Board Member Ken Puccio that not everyone is a computer technician. What is important is that a student becomes a productive member of society. That includes all fields of employment - not just technology.

I can't stress enough how important the guidance department is in high school. How many at the age of fourteen know what they want to do with their life?

Education has become so complicated over the years and to pick a career at age fourteen is hard for a teenager. tional college may not always. It is important to explore the suit a child or young adult's career they want while that opportunity is there. Time goes by quickly. K.M.

#### **Flight Recording**The recent loss of an air-

liner over the ocean points out the need for an upgraded recording system. If they could connect the flight recorder to a cellular telephone the data could be sent when a serious problem occurred, not after the flight recorder was retrieved.

Why were passengers with

false passports allowed on the airliner (as reported)? There seems to be a problem in document inspection.

#### Old Time Crusades

When I was a kid in Depression era Perth Amboy I was greatly impressed by religious services exemplified by the priest. He looked so spiritual as he conducted the services in Carpatho-Russian and was accompanied by a first class acapella choir. I was further astounded when four men with baskets collected donations. In those days the folks contributed mostly coins. The only paper money was placed by businesses or professional people, the local numbers runner and the saloon keeper. Boy! Priesthood was the future for me! I memorized the church services. However, I wondered who this guy Pappa Pius was who mentioned. I learned that he was Pope Pious XII the head of the Church. At that time we were under the jurisdiction of Rome by reason of a centuries old treaty. We were allowed to conduct our services in our own language, our priests were allowed to be married and the parishes conducted their own financial affairs. One priest in New York had nine beautiful daughters!

In the 1920s Rome decried that all of our priests had to be celibate, that our services were to be conducted in Latin and the bishop would control the local parish's financial affairs. As young as I was I could not accept celibacy. I Instinctively knew I wanted a family when I grew up!

He did not have time to establish religions as we know them. After all his ministry of earth consisted of only a few years. All these religions were founded long after his death by humans with all their faults and virtues. This has led to more religious strife than many other causes. Including the present one in the Middle

East which is the modern version of the Crusades of the Christian West against the Muslim East. It is a no win situation as were the old time Crusades!

On January 5, 1964 Pope Paul VI and Patriarch Benedictos of Jerusalem met in the Holy Land on the Mount of Olives. The first meeting in five centuries between a Roman Catholic Pope and an Eastern Orthodox Church Patriarch. It is also the first papal pilgrimage to the Holy Land.

Hopefully the present actions of Pope Francis will lead to reform and an eventual reunion of the West and the East similar to the local St. John's Parish before we won our freedom in the 1930s!

God Bless us all! God Bless America! It certainly needs it!

Thank you for your courtesies, Very truly yours,

Peter Book a.k.a. Pedro Libro

#### Yesterday or **Today**

I've been fortunate to live at both ends of the stick.

Today we now have new homes, new cars, washers, dryers, television in every room, cell phones and all kinds of conveniences. Wow!!! We have it all.

Let's turn the clock back to yesterday. Some may recommend and others God has taken upstairs.

Once upon a time people would say, "Please and Thank

Men and Women wore hats. People wore socks and shoes. Mom used a scrubbing board to clean clothes and then hung them on the clothes line to dry.

A man would give up his seat to let a lady sit if she was standing. Sunday was a day of rest. Some readers may recall the saying, "Come day, go day, God sends Sunday."

Kids walked to school. I didn't even know what a school bus was or looked like. We had roller skates to skate in the street and I got a bike when I was about 12 years old. It was fun climbing trees and catching lightening bugs and putting them in a jar. There were games called, "Hide and Seek" and "Kick the Can." Drugstores had soda fountains in them and you could get an ice cream soda for a nickel and a double dip for a dime.

Mom would call you in for supper when it started to get dark outside.

We had radio programs in the evening. My favorites were Tom Mix, Captain Midnight and The Green Hornet and if you drank enough Ovaltine, you could get a secret decoder.

That was yesterday and the new people say, "You had nothing," or "What did you have?"

My answer to the new guys is this. Yesterday we had happiness and we were United and strong enough to win World War II.

I have nothing against our young and new era and I wish them the best. But I have a message for all of my friends out there. "The new is not always the better or best."

Thomas Francis Clark

# Conference Empowering Perth Amboy Parents & Students Announced

News Release 3/18/14
PERTH AMBOY - Are you the parent or family member of a student in Perth Amboy's public schools? Do you care about the standards of behavior set by the school district for your child and the other students? Do you know your legal rights to review and contribute to the Perth Amboy School District Student Code of Conduct?

The Citizens Campaign is hosting a free conference to address these questions and more on Saturday, March 29 from 9:30 a.m. to 12 noon at the Raritan Bay Area YMCA in Perth Amboy.

"Empowering Perth Amboy Parents & Students" will feature leading education and legal experts who will share their experiences engaging parents and their insights on setting proven standards of behavior and effective responses to misbehavior for Perth Amboy students.

Speakers include former assistant commissioner at the New Jersey Department of Education & current superintendent of New Brunswick Public Schools, Richard Kaplan; President and CEO of the Newark Trust for Education, Ross Danis; and The Citizens Campaign Chairman and legal rights expert Harry Pozycki; Georgette Gonzalez who has generated exceptional parental participation; and Kimberly Vanderhoef, cocoordinator of The Citizens Campaign's Law & Policy Task Force.

"The goal of this conference is to empower parents and students to better navigate the school system and to know their legal rights to improve our school district's Student Code of Conduct," said The Citizens Campaign Chairman, and Perth Amboy resident, Harry Pozycki.

For example, since the

1970s student suspension rates across the country have escalated dramatically, putting children at a disadvantage in the classroom and increasing the risk of drop outs or expulsion. Despite evidence-based research that shows there are more effective ways of disciplining and helping students, many school districts still rely on these outdated methods. But, few parents realize they have a legal right to provide input on this policy, and the power to help chart a new course for challenged youth in their city.

This conference is the result of months of discussion and collaboration among community leaders in Perth Amboy as part of The Citizens Campaign's Impact Perth Amboy initiative. During monthly "Bay City Conversations," residents identified issues they would like to work together on and helping Perth Amboy's challenged youth was chosen as a top priority.

Impact Perth Amboy stakeholder and Perth Amboy PTO President Donna Stewart said, "When our students do better, our City does better."

The Empowering Perth Amboy Parents & Students conference is free and open to the public. Free bagels and coffee will be provided.

The conference will begin at 9:30 a.m. on Saturday, March 29 at the Raritan Bay Area YMCA, 357 New Brunswick Avenue, Perth Amboy, NJ.

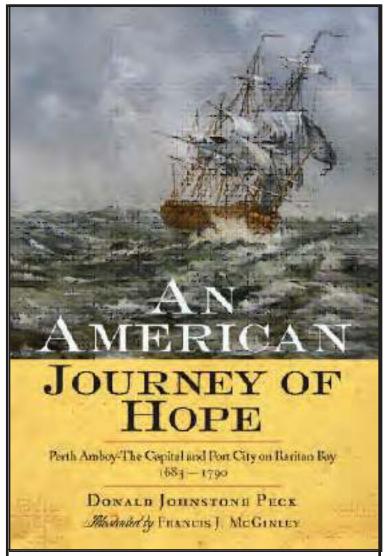

The Citizens Campaign is a non-profit non-partisan organization dedicated to fixing our democracy from the bottom up by training citizens in "no blame" politics and evidence-based problem solving, while empowering citizens to change the political climate and become a new force for answering our hometowns, state and nation's challenges.

Press Release

PERTH AMBOY – An American Journey of Hope: Perth Amboy – The Capital and Port City on Raritan Bay 1683-1790 by Donald Johnstone Peck With illustrations by Francis J. McGinley

An American Journey of Hope is a vivid chronicle of how the original Scottish colonists of Perth Amboy, New Jersey transformed the city into a center of political and religious force that held forth the promise of a way of life that emphasized freedom, opportunity and plenty for all.

The initial vision of the twenty-four Proprietors of East Jersey in the seventeenth century was to establish a colony for persecuted Scottish Quakers. Their intent was to help those who were oppressed and suffering, and to rescue prisoners and exiles. In this way Perth Amboy became the port of entry for both the Quaker and Calvinist Non-conformist Presbyterian Covenanters who would subsequently establish the Presbyterian Church in America. The author details the events that accompanied these changes, and continues with a precise chronology of the incidents in the city that led up to the American Revolution.

As the narrative continues, it reveals the story of the conflict between a stronghold of prominent Loyalists and their engagement with many of America's leading patriots in the struggle for American religious and political independence.

The story of Perth Amboy provides a unique lens through which to observe the upheaval that overturned the old order and established the basis for the freedom that we enjoy today.

#### Eating Well Doesn't Have to be Expensive

By: Kristin Carlino, RD

You may hear people say they can't afford to eat healthy, but as it turns out, some of the healthiest foods aren't the most expensive.

Eating at restaurants or buying packaged, processed food can add up quickly. A person can eat much healthier and for less or the same cost by buying fresh whole foods, buying locally and seasonally, and cooking them at home.

These small changes in the way we shop, cook and feed our families can help us find a balance between being mindful of our budgets and keeping ourselves and our families happy and healthy.

Buy Whole Foods. Unprocessed foods are cheaper and more nutritious than processed foods. They also give you total control over the ingredients. Avoid anything that comes from a box 90 percent of the time. Buy easy to pre-

pare ground beef and chicken breasts, low-fat cottage cheese, plain yogurt, whole grain pasta, brown rice, fresh seasonal fruits and vegetables.

Buy Cheap Proteins. Keep the steaks and salmon for special occasions. Buy eggs, milk, whey, mackerel, tuna, calves liver, frozen chicken breasts, cottage cheese, and natural nut butters.

Buy Frozen Fruits and Veggies. If frozen when picked, frozen fruits and veggies can contain more nutrients than fresh ones. Since they are prewashed and pre-cut, you'll save preparation time, making you more inclined to eat your vegetables!

Buy Generic Food. And try store brands for raw foods like rice, pasta, eggs, milk, cottage cheese, and frozen fruits/veggies.

**Buy in Bulk.** Especially when your favorites are on sale. Foods like pasta, brown

rice and steel-cut oatmeal are easy to stockpile.

**Buy In Season Fruits and Veggies.** Food grown in season tastes better and is cheaper. Root vegetables in the winter. Apples and squash in the Fall. Tomatoes and berries in the summer.

Buy Calorie Dense Foods. Whole milk, eggs, potatoes, rice, pasta and oats are filling, healthy and easy to stockpile. They'll help you get your daily caloric needs fast and inexpensively.

**Drink Tap Water**. Get a filtered pitcher and filter your tap water. It's cheaper than bottled water, better for the environment, and healthier than drinking soda or orange juice.

Get The Customer Card. Many grocery stores hold sales for customer card holders only. Signing up takes 5 minutes and is free.

**Avoid Impulse Buying**. The best way to avoid impulse

buying is to plan your meals ahead, make a shopping list, and stick to it. Eat before you go food shopping.

Stop Buying Food Outside. Preparing your own food gives you total control over the ingredients and is cheaper than buying food at work or school.

Prepare Your Own Food. Cook all your meals for the day on waking up or before going to bed, or use a weekend day and have the family pitch in to help. It saves you stress about what's for lunch or dinner, and you can all plan to eat more healthily.

#### Tax Facts

# Deadline Approaching For Nonprofit Organizations

Courtesy of Tom Ploskanka A different sort of tax return deadline is fast approaching: Nonprofit groups claiming tax-exempt status have until May 15, 2014, to file returns for the 2013 tax year. Here are the answers to several common questions on this issue.

Q. Does every organization have to file a return?

A. No. There are certain exceptions in the law. For example, the following non-profits are exempt from the filing requirements:

- Most religious organizations, religious schools and missionary organizations.
- Subsidiaries of nonprofits that may be covered under a group return filed by the parent organization.
- Certain government corporations and state institutions providing essential services. *Q. What form do you have to file?*

A. It depends on the size and nature of the organization. Nonprofits with gross receipts of more than \$50,000 must file Form 990

or 990-EZ, those with gross receipts that don't exceed \$50,000 file Form 990-N (the "e-Postcard"), and private foundations file Form 990-PF.

Q. What happens if you fail to file?

A. It could result in monetary penalties. Even worse, if an organization fails to file Form 990 three years in a row, the IRS will automatically revoke its tax-exempt status and it can no longer receive tax-deductible contributions. There's no appeal process for this harsh result. *Q. Are there any other potential taxes?* 

A. Yes. Significantly, a taxexempt organization may owe an "unrelated business income tax" (UBIT) for regular business activities unrelated to its charitable function. For example, if a nonprofit charges advertising in its publications, the income may be subject to UBIT.

If you need more information about nonprofits and taxes, contact us.

#### Novena to St. Rita

O holy protectress of those who art in greatest need, thou who shineth as a star of hope in the midst of darkness, blessed Saint Rita, bright mirror of God's grace, in patience and fortitude thou art a model of all the states in life. I unite my will with the will of God through the merits of my Savior Jesus Christ, and in particular through his patient wearing of the crown of thorns, which with tender devotion thou didst daily contemplate. Through the merits of the holy Virgin Mary and thine own graces and virtues, I ask thee to obtain my earnest petition, provided it be for the greater glory of God and my own sanctification. Guide and purify my intention, O holy protectress and advocate, so that I may obtain the pardon of all my sins and the grace to persevere daily, as thou didst in walking with courage, generosity, and fidelity down the path of life. (Mention your re-
